

The Committee *for* Clean Water, Natural Resources & Parks

SB 5 Bond Measure: Natural Resources

The Committee for Clean Water, Natural Resources, and Parks (CWNRP) members worked hard alongside state legislators to successfully pass SB 5, a bond measure that voters will decide in June 2018. If passed by voters, the SB 5 Bond Measure would provide to state agencies:

- \$30 million for trails and greenway grants
- \$25 million for state parks natural resources projects
- \$162 million for river parkways and stream restoration
- \$180 million for state conservancies
- \$5 million for regional conservation investment strategies
- \$30 million for projects that implement the Salton Sea Management Program
- At least \$52 million for natural community conservation plan projects
- \$200 million for voluntary agreements that provide water protection and restoration
- \$175 million for coastal and ocean natural resources protection
- \$18 million for wildlife conservation
- \$20 million to enhance wildlife connectivity and restore habitat
- \$10 million for the California Waterfowl Habitat Program
- At least \$25 million for projects that restore rivers and streams in support of fisheries and wildlife
- \$60 million to improve wildlife and fish passage
- At least \$30 million dollars to improve conditions for fish and wildlife in streams, rivers, wildlife refuges, wetland habitat areas, and estuaries
- At least \$60 million for protection of upper watershed in the Sierra Nevada and Cascade Mountains

**A thriving, resilient California for all.
